Description

Dry Freight or Cold Storage Conversion Trailer – Wabash Style This 53-foot insulated trailer was previously outfitted as a refrigerated unit but currently has no refrigeration system installed. It's ideal for dry freight hauling, on-site storage, or retrofit with a new cooling unit. Its insulated walls provide temperature resistance for sensitive cargo or warehouse use. **Details:** • Type: Insulated Reefer Shell (No reefer unit) • Length: 53 ft • Material: Aluminum body with insulated walls • Axles: Tandem • Rear Door: Swing doors • Cooling Unit: Not installed – sold as shell only • Application: Dry freight, storage trailer, or retrofit project • Condition: Used – body in good shape, ready for repurpose
